Winner of the 2020 Society of Professors of Education Outstanding Book Award Drawing on personal stories, research, and historical events, an esteemed educator offers a vision of educational justice inspired by the rebellious spirit and methods of abolitionists. Drawing on her life's work of teaching and researching in urban schools, Bettina Love persuasively argues that educators must teach students about racial violence, oppression, and how to make sustainable change in their communities through radical civic initiatives and movements. She argues that the US educational system is maintained by and profits from the suffering of children of color. Instead of trying to repair a flawed system, educational reformers offer survival tactics in the forms of test-taking skills, acronyms, grit labs, and character education, which Love calls the educational survival complex. To dismantle the educational survival complex and to achieve educational freedom—not merely reform—teachers, parents, and community leaders must approach education with the imagination, determination, boldness, and urgency of an abolitionist. Following in the tradition of activists like Ella Baker, Bayard Rustin, and Fannie Lou Hamer, *We Want to Do More Than Survive* introduces an alternative to traditional modes of educational reform and expands our ideas of civic engagement and intersectional justice. Many of the health problems we suffer are connected to eating habits. Change your life by changing the types of food you eat. Learn which foods are beneficial and which foods make you sick. Don't struggle on your own to make necessary lifestyle changes. Learn how to mobilize God's power.

In 2000, Pope John Paul II canonized the great 20th century visionary of Divine Mercy, Sister Faustina Kowalska, and proclaimed the Sunday after Easter to be celebrated annually as Divine Mercy Sunday. In 2006, Pope Benedict stressed that "Divine Mercy is not a secondary devotion, but an integral dimension of Christian faith and prayer." Now Pope Francis has proclaimed an extraordinary Jubilee Year of Mercy, which will begin on December 8, 2015. These three Popes have made it very clear that Divine Mercy is a major part of the Christian faith, and now this powerful new book reveals why. Best-selling author Vinny Flynn continues his popular "7 Secrets" series with a book that brings him back to his roots. Vinny was one of the original editors of the official English edition of the actual Diary of St. Faustina, and he has written and edited a vast number of the Divine Mercy materials that are used today. Through his "secrets" of Divine Mercy, Vinny shows how Divine Mercy is not just another worthy "private devotion"; it is the key devotion, the umbrella devotion over everything else. Every other devotion in the Church, every ritual, every activity, every teaching is under that umbrella of Divine Mercy. It's all there to help us understand and enter into Divine Mercy. He shows us how everything in our lives can become more meaningful, more powerful, more life-changing once we really embrace the gift of Divine Mercy — the overflow of love from the Holy Trinity. In this compelling and timely book, Flynn draws from Scripture, the teachings of the Church, and the Diary of St. Faustina to not only reveal the heart of Divine Mercy, but to offer you an invitation and a road map so that this mercy can transform your life. If you're not yet convinced of the impact Divine Mercy can have on your life, if you've never heard of this message and devotion, or if you're curious to learn more about it, this book is perfect for you. It shows us all how to respond to the call of Pope Francis "to live lives shaped by mercy", and benefit greatly from the "Year of Mercy".

The pressures of manhood can be enormous, and they're only intensified by the mixed messages you receive from culture. Sometimes it seems as though everyone wants something from you. Does being a real man mean having a perfect family, a corner office, a luxury car, and a massive home? Or, is there something more to life, a source of deeper satisfaction. The Bible has some surprising and counterintuitive things to say about being a man. [7] is a small group experience that enables you to explore God's design for manhood. During the seven sessions, you'll be introduced to seven questions that rattle in the minds of most men. I hope that this experience is the beginning of a journey in which God leads you to be the husband, father, brother, boss--man--you've always wanted to be. Product format: Study Guide with accompanying DVD (sold separately). One DVD needed per group, and one study guide per person in the group. Session Titles: 1. Where Am I? 2. What's My Story? 3. Life Span Motor Development, Seventh Edition With HKPropel Access, is a leading text for helping students examine and understand how interactions of the developing and maturing individual, the environment, and the task being performed bring about changes in a person's movements. This model of constraints approach, combined with an unprecedented collection of video clips marking motor development milestones, facilitates an unmatched learning experience for the study of motor development across the life span. The seventh edition expands the tradition of making the student's experience with motor development an interactive one. Related online learning tools delivered through HKPropel include more than 190 video clips marking motor development milestones to sharpen observation techniques, with interactive questions and 47 lab activities to facilitate critical thinking and hands-on application. The lab activities may be assigned and tracked by instructors through HKPropel, along with chapter quizzes (assessments) that are automatically graded to test comprehension of critical concepts. The text also contains several updates to keep pace with the changing field: Content related to physical growth and development of the skeletal, muscle, and adipose systems is reorganized chronologically for a more logical progression. New material on developmental motor learning demonstrates the overlap between the disciplines of motor development and motor learning. New insights into motor competence help explain the relationship between skill development and physical fitness. The text helps students understand how maturational age and chronological age are distinct and how functional constraints affect motor skill development and learning. It shows how the four components of physical fitness—cardiorespiratory endurance, strength, flexibility, and body composition—interact to affect a person's movements over the life span, and describes how relevant social, cultural, psychosocial, and cognitive influences can affect a person's movements. This edition comes with 148 illustrations, 60 photos, and 25 tables—all in full color—to help explain concepts and to make the text more engaging for students. It also retains helpful learning aids including chapter objectives, a running glossary, key points, sidebars, and application questions throughout each chapter. Life Span Motor Development, Seventh Edition, embraces an interactive and practical approach to illustrate the most recent research in motor development. Students will come away with a firm understanding of the concepts and how they apply to real-world situations. Note: A code for accessing HKPropel is not included with this ebook but may be purchased separately.
