140 PAGES OF ADDITION AND SUBTRACTION WITH PICTURES AND NUMBERS The workbook is designed in a such a way so that your child will progress to more difficult addition and subtraction questions with ease. This math workbook consists of 6 parts: ADDITION: The two numbers being added are represented by a corresponding number of pictures. The total is represented by pictures and the kids have to write the correct number. ADDITION: The two numbers being added are represented by a corresponding number of pictures. For the total, the kids are required to choose one of two results represented by numbers and a corresponding number of pictures. ADDITION: The two numbers being added are represented by a corresponding number of pictures and the kids are required to write the correct answer. without any help, but only by looking back at the two numbers being added. ADDITON: Addition with one number unknown. The kids are given the total represented by a number and a corresponding number of pictures and one of the numbers being added. They have to figure out the outhur number. SUBTRACTION: The kids are presented with a line of pictures. The objects being subtracted are crossed out. The problem is also represented by numerals only. The kids simply have to count the objects that are not crossed out to get the final result. SUBTRACTION: the kids are presented with a line of pictures along with the numerical representation of the subtraction problems. The kids are required to cross out the objects that are being subtracted and count the remaining number of objects to get the final result.
