From the expert team behind IT'S PERFECTLY NORMAL and IT'S SO AMAZING! comes a book for younger children about their bodies — a resource that parents, teachers, librarians, health care providers, and clergy can use with ease and confidence. Young children are curious about almost everything, especially their bodies. And young children are not afraid to ask questions. What makes me a girl? What makes me a boy? Why are some parts of girls' and boys' bodies the same and why are some parts different? How was I made? Where do babies come from? Is it true that a stork brings babies to mommies and daddies? IT'S NOT THE STORK! helps answer these endless and perfectly normal questions that preschool, kindergarten, and early elementary school children ask about how they began. Through lively, comfortable language and sensitive, engaging artwork, Robie H. Harris and Michael Emberley address readers in a reassuring way, mindful of a child's healthy desire for straightforward information. Two irresistible cartoon characters, a curious bird and a squeamish bee, provide comic relief and give voice to the full range of emotions and reactions children may experience while learning about their amazing bodies. Vetted and approved by science, health, and child development experts, the information is up-to-date, age-appropriate, and scientifically accurate, and always aimed at helping kids feel proud, knowledgeable, and comfortable about their own bodies, about how they were born, and about the family they are part of.

“The ideal time to begin sharing books with children is during babyhood, even with children as young as six weeks.” —Starting Out Right National Research Council All parents hope to give their children the best possible start in life. Many of them know it's a good idea to read to their children at a very young age, not with the goal of teaching their kids to read, but with the joy of having special time together looking at pictures and playing with words. Carefully chosen books that introduce children to the pleasures of language, simple story structure, and wonderful artwork are the foundation for a future love of books. Great Books for Babies and Toddlers is the first book of its kind—a guide to the best age appropriate children's books available. Compiled by Kathleen Odean, former Chair of the Newbery Award Committee, Great Books for Babies and Toddlers provides lively annotations for more than five hundred books, divided into two helpful categories: Nursery Rhymes, Fingerplays, and Songs; and Picture-Story Books for the Very Young. With story selections ranging from such classics of children's literature as Goodnight Moon and Where's Spot? to excellent new books like How Does a Dinosaur Say Good Night? and Buzz!, Great Books for Babies and Toddlers will be more than a cherished guide for parents—it will also be a child's first step in the lifelong adventure of reading.

Finalist for the 2014 Lambda Award for LGBT Children's/Young Adult “What Makes a Baby is extraordinary! Cory is a Dr. Spock for the 21st century.”—Susie Bright “A Truly Inclusive Way to Answer the Question 'Where Do Babies Come From?': The new book What Makes a Baby offers an origin story for all children, no matter what their families look like.” —The Atlantic “This is a solid, occasionally quirky book on an important topic.”—School Library Journal Geared to readers from preschool to age eight, What Makes a Baby is a book for every kind of family and every kind of kid. It is a twenty-first century children's picture book about conception, gestation, and birth, which reflects the reality of our modern time by being inclusive of all kinds of kids, adults, and families, regardless of how many people were involved, their orientation, gender and other identity, or family composition. Just as important, the story doesn't gender people or body parts, so most parents and families will find that it leaves room for them to educate their child without having to erase their own experience. Written by sexuality educator Cory Silverberg, and illustrated by award-winning Canadian artist Fiona Smyth, What Makes a Baby is as fun to look at as it is useful to read.

In this illustrated classic, Margaret Morley teaches readers about how seeds sprout and grow into beautiful plants, how frogspawn makes frogs, how eggs hatch into birds. With many drawings and lots of conversation, Jack and his friends explore the garden and countryside near where they live. They discover all kinds of seeds, nuts, eggs and plants, learning lots about how nature works. They are amazed to discover that big fruits like melons originate from tiny seeds that can sit in the palm of a person's hand. The many fruits that people eat day to day, such as apples and pears, grow from trees that sprouted many years ago from a tiny seed that was made inside one of its fruits. Later on in the book, Jack and company find out how birds and other creatures hatch from eggs. Sometimes the eggs are protected by the mothers who lay them, while other eggs are simply left in the sun's warmth to hatch after a short time. The gang also find out how bumblebees make more plants grow by spreading pollen that they pick up while eating nectar from flowers.
