Color and learn awesome facts about 25 cool backyard bugs! Meet 25 weird and wonderful backyard bugs! This learn-through-coloring book provides kids with hours of coloring fun and teaches them exciting facts about these creepy crawly creatures at the same time. Did you know that centipedes can regrow legs they've lost to predators? That ladybugs can have up to 20 spots, stripes, or no markings at all? Or that houseflies taste with their feet? Here's what these bugs look like, how they protect themselves, how they crawl and jump and fly, and so much more. Children will have fun coloring the bugs, learning about them (including the difference between bugs and insects), and becoming backyard bug experts. Bug Book for Kids features: - 50 age-appropriate illustrations, perfect for little hands. - Learning while having coloring fun! Kids will discover amazing facts for each bug that they can share with family and friends. - Bonus trading cards at the end of the book for kids to color.

Meet the mamas and papas of the insect world in this fresh and funny nonfiction look at how bugs are like us from popular science author and teacher Heather Montgomery. Most insects don't take care of their young, but some do--in surprising ways. Some bugs clean up after their messy little ones, cater to their picky eaters, and yes--hug their baby bugs. A fun and clever look at parenting in the insect world, perfect for backyard scientists and their own moms and dads. Back matter includes further information about the insects and a list of resources for young readers.
