novels. He led an adventurous life, in keeping with his fiction, serving as a diplomat for San Marino, while extensively travelling Europe, the Balkans and North Africa. He was also a flying buff and a wireless pioneer, who broadcasted music from his own station long before radio was generally available. His most famous works are the invasion fantasies 'The Great War in England in 1897' and 'The Invasion of 1910'. Le Queux's exaggerated tales and falsified accounts of Britain's neighbours, playing upon the fervid xenophobia of the time, were so powerful and gripping that they led to the creation of Britain's first Secret Service Bureau, the forerunner of MI5. This eBook presents the largest collection ever compiled of Le Queux's fiction, with numerous illustrations, many rare texts and informative introductions. The eighteenth century Irish philosopher George Berkeley is best known for his empiricist and idealist philosophy, which argues that reality consists only of minds and their ideas. He is also known for his critique of abstraction, an important premise in his argument for immaterialism. His chief philosophical work, 'A Treatise Concerning the Principles of Human Knowledge' (1710), largely seeks to refute the claims made by Berkeley's contemporary John Locke about the nature of human perception. This eBook presents Berkeley's complete works, with numerous illustrations, rare texts appearing in digital print for the first time, informative introductions and the usual Delphi bonus material. The French painter Édouard Manet, often associated with the Impressionists, broke new ground by defying traditional techniques of representation and by choosing contemporary subjects of Parisian life. His 'Déjeuner sur l'herbe' and 'Olympia' sparked public outcries, while inspiring a new generation of artists to embark on a new focus on modern, urban subjects, winning for Manet a pivotal place in the history of modern art. Delphi's Masters of Art Series presents the world's first digital e-Art books, allowing readers to explore the works of great artists in comprehensive detail. This volume presents Manet's complete paintings in beautiful detail, with concise introductions, hundreds of high quality images and the usual Delphi bonus material. The French seventeenth century philosopher, Blaise Pascal was also a mathematician, physicist and master of prose. A child prodigy, Pascal had numerous interests and an innovative, untiring mind, making a significant contribution to a range of fields and studies. He laid the foundation for the modern theory of probabilities, formulating what came to be known as Pascal's principle of pressure. He also propagated a religious doctrine that taught the experience of God through the heart rather than reason. An important mathematician, he went on to strongly influence the development of modern economics and social science. Pascal's most celebrated work is 'Pensées' (Thoughts), a collection of fragments left unfinished at his early death. It is a treatise on spirituality, representing a defense of the Christian religion, introducing the famous concept of "Pascal's wager". This comprehensive eBook presents Pascal's collected (almost complete) works, with numerous illustrations, rare texts, informative introductions and the usual Delphi bonus material. (Version 1) * Beautifully illustrated with images relating to Pascal's life and works * Concise introductions to the texts * All of the major works, with individual contents tables * Multiple translations of 'Pensées' *

The Geography of Strabo is the only surviving work of its type in Greek literature, and the major source for the history of Greek scholarship on geography and the formative processes of the earth. In addition, this lengthy and complex work contains a vast amount of information on other topics, including the journey of Alexander the Great, cultic history, the history of the eastern Mediterranean in the first century BC, and women's history. Modern knowledge of seminal geographical authors such as Eratosthenes and Hipparchos relies almost totally on Strabo's use of them. This is the first complete English translation in nearly a century, and the first to make use of recent scholarship on the Greek text itself and on the history of geography. The translation is supplemented by a detailed discussion of Strabo's life and his purpose in writing the Geography, as well as the sources that he used.

Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork. The American writer and Nobel Prize laureate, William Faulkner is primarily known for his novels set in the fictional Yoknapatawpha County, based on Lafayette County, Mississippi, where he spent most of his life. One of the most celebrated writers of twentieth-century literature, Faulkner was an important exponent of the modernist technique. His masterpieces 'The Sound and the Fury', 'As I Lay Dying' and 'Light in August' are celebrated for their depth of characterisation, structural resourcefulness and social notation. Influenced by the works of Sherwood Anderson, Herman Melville and especially James Joyce, Faulkner blended the stream-of-consciousness technique with vibrant social history. For the first time in publishing history, this eBook presents Faulkner's complete works, with numerous illustrations, rare texts appearing in digital print for the first time, informative introductions and the usual Delphi bonus material.

The philosopher and psychologist, William James (brother to the famous novelist Henry James) was a leading thinker of the late nineteenth century and one of the most influential American philosophers, regarded by many as the father of American psychology. James established the philosophical school known as pragmatism and is also cited as a founder of functional psychology. Noted for his rich and vivid literary style, James developed the philosophical perspective known as radical empiricism, while his work went on to influence intellectuals such as Émile Durkheim, W. E. B. Du Bois, Edmund Husserl, Bertrand Russell and Albert Einstein. For the first time in digital publishing, this eBook presents James' complete works, with numerous illustrations, rare texts, informative introductions and the usual Delphi bonus material. A giant of eighteenth century literature, William Congreve was an English playwright and poet of the Restoration period. His poetry demonstrates a learned understanding of the classics, raw satirical power and an ironic scrutiny of the affectations of his age. Congreve's famous plays are celebrated for their witty dialogue and their seminal influence on the comedy of manners style. The Delphi Poets Series offers readers the works of literature's finest poets, with superior formatting.
