In order to celebrate the fifteenth anniversary - the third lustrum - of our Center, we at CHEPS decided to collectively write a book on the issue of how higher education institutions deal with the demand for change. Institutional change is without any doubt one of the burning issues for researchers in higher education and policy studies in general, but even more so for administrators at the institutional level (institutional leadership, deans) and planners of higher education in public life (government agencies, intermediary organisations, international organisations). Whereas the lustrumbook we wrote for our second lustrum concentrated on comparative policy studies, many of them focusing on comparisons between different national higher education systems, this time the object of our analyses is the institution itself. Today's higher education institutions are faced by demands from a multitude of actors - from inside the institution (students, staff) as well as from the institution's environment (governments, employers, research councils, sponsors). These demands require changes in policy, practice, systems, and culture. The ways in which institutions respond to these demands and how their behaviour may be understood and predicted is the challenge tackled by the authors of this volume, each from their own perspective and each looking at different aspects of the educational organisation.

Cholene Espinoza Air Force Academy graduate, former U-2 reconnaissance pilot, and embedded Iraq War journalist rediscovers hope and purpose in the aftermath of Hurricane Katrina. With her partner, a close friend, and a truck packed with supplies, Espinoza drives into the Deep South with misgivings and self-doubt. Once in DeLisle, Mississippi, she meets Rev. Rosemary Williams, pastor of the Mt. Zion Methodist Church. Williams is at the center of local relief efforts, and from her damaged church she gives survivors comfort not just spiritual comfort, but food, shelter, clothing, and love. Espinoza finds her own struggles overwhelmed and transformed by the stories of Katrina's survivors. Espinoza details the seemingly insurmountable red tape, systemic barriers, and inequities in disaster assistance for people who have no means to complain or demand better. Common stereotypes about race, religion, poverty, government assistance, single parenthood even our notions of charity are challenged when seen Through the Eye of the Storm. This is a story of loss and recovery, of the ravages of disaster and the healing power of community.

NEW YORK TIMES BESTSELLER "Nathaniel Philbrick is a masterly storyteller. Here he seeks to elevate the naval battles between the French and British to a central place in the history of the American Revolution. He succeeds, marvelously."--The New York Times Book Review The thrilling story of the year that won the Revolutionary War from the New York Times bestselling author of *In the Heart of the Sea* and *Mayflower*. In the concluding volume of his acclaimed American Revolution series, Nathaniel Philbrick tells the thrilling story of the year that won the Revolutionary War. In the fall of 1780, after five frustrating years of war, George Washington had come to realize that the only way to defeat the British Empire was with the help of the French navy. But coordinating his army's movements with those of a fleet of warships based thousands of miles away was next to impossible. And then, on September 5, 1781, the impossible happened. Recognized today as one of the most important naval engagements in the history of the world, the Battle of the Chesapeake—fought without a single American ship—made the subsequent victory of the Americans at Yorktown a virtual inevitability. A riveting and wide-ranging story, full of dramatic, unexpected turns, *In the Hurricane's Eye* reveals that the fate of the American Revolution depended, in the end, on Washington and the sea.

A spiritual as well as a factual autobiography, this is a self-portrait of Rubin Hurricane Carter, a 20th-century icon and controversial victim of the U.S. justice system turned

spokesperson for the wrongfully convicted. Exposing the inherent flaws in the legal and penal systems, this autobiography also serves as a prison survival manual--be it a brick-and-mortar cell or the metaphorical prison of childhood abuse, racism, and despair.

Despite the voluminous research published about World War II, there has remained a surprising gap; there is little, perhaps nothing, on the role of Switzerland. It was in the neutral Swiss oasis-where a perilous balancing act was required for survival-that a combination of determination and delicate negotiation continued to frustrate the Axis powers. Urs Schwarz cuts through the myths surrounding this period in a narrative based largely on his experiences as both participant and observer. He was a soldier, then a journalist in war-torn Berlin, and, beginning in 1942, foreign editor of the Neue Zürcher Zeitung. These experiences, and subsequent extensive research, result here in a unique and discerning-and colorful-history.

Most of us have been there at one time or another. Everything is going well or at least it seems to be. But what once seemed to be the perfect life and perfect family turned out to be a fast track to devastation. How could that have happened? It was all so right just a short time before. Author Earl G. Grover III found his perfect life was not quite as perfect as he thought it was. In the Eye of the Hurricane: Where God Resides tells his story of facing life's realities, which does not include human perfection. Among the things he and his family faced were a hurricane, foreclosure, unemployment, death, and an unplanned pregnancy. Grover refused to heed the warnings that his life may not be going in the direction God wanted. And when adversity struck his life, he wondered if God had totally given up on them? Grover's experiences prove that faith and putting God first in your life can bring you through the worst of times. In the Eye of the Hurricane: Where God Resides shows that during those tough times in our lives, God is the closest. He has wrapped His arms around us to carry us through the storm. We need to have faith God truly knows what is best.

The Arab uprisings have put Lebanon under increased strain. While the revolutions in Tunisia and Egypt caused limited reverberations, the war in Syria echoed in the fine-tuned political and confessional balance of Lebanon. Over one million refugees, equal to one-quarter of Lebanon's population, have moved in from Syria. The country's economy and its already weak public infrastructure have been impacted heavily. Hizbullah's engagement in Syria has posed questions about Lebanon's disassociation policy. Terrorist attacks by ISIL and the growing risk of radicalization across the confessional spectrum have left the country at unease. However, Lebanon's political elites have vowed to shield the country from regional turbulences. Lebanon recently saw a series of demonstrations because of the inability of the government to manage the garbage crisis, but it has been far from witnessing a large-scale citizen uprising similar to the 2005 Cedar Revolution or the revolts next door. This book provides a comprehensive overview of the current situation in Lebanon, and a detailed assessment of the difficulties which the country is currently facing.
