When Zane and Megan crack the Secnet, they stumble across Project Net Rider. The awesome Cyber Warfare program immerses the user in virtual reality, and has a netbike to infiltrate any computer in the new global network. But the software is dangerous and in the wrong hands, capable of unlimited destruction. So when the Underground's most notorious hacker steals a copy, the entire world is threatened. And the two friends have to risk everything to stop him.

Eleven-year-old Alex Peterson may be the least-athletic boy at his school, yet he dreams of accomplishing something "not a whole lot of other people in the world have ever done": a 200-mile, single-day bicycle ride from Seattle to Portland. Alex discovers that if he's to reach even the starting line, he must overcome more than his physical disability. He must also find a way to revive his father's own long-dormant dreams, and convince his dad to join forces with him, before they can achieve together what neither would on his own.

Mommy Muscles is for every woman who wants to improve herself and change her life forever. Mommy Muscles offers practical advice to help you find your motivation to meet the demands of a busy life while balancing your health and achieving your fitness goals. You'll find workout plans, recipes, and tips for being healthy every day, including on vacation and during the holidays. It is your time to lead a life where you are physically and mentally strong, happy and fulfilled.

Did you know there is an area of your brain known as the "Lizard Brain" that thinks only about the immediate moment and your means of survival? Yes, in certain circumstances, your "Rational Brain" can effectively "shut down" and you are at the mercy of a reptile ... dry-mouthed, sweating, queasy, unable to think clearly—even though you know better. When does the Lizard Brain run the show? It can happen in any number of unfamiliar, uncomfortable, challenging, or "stressful" riding situations. But here's the thing: with the right kind of training, you can learn to manage the reptile within, which leads to greater confidence with horses, better riding performance, and ultimately, happiness at the barn, at shows, and everywhere in between. Andrea Monsarrat Waldo teaches you how to: handle uncomfortable emotions, such as fear, anger, anxiety, and embarrassment; hone your mental game and focus your riding time to get the most out of your hours in the saddle; care for your emotional injuries the same way you would care for an injured horse; and produce a state of "Focused Calm" and tap into the skills you have (whether you know it or not!) to ensure an outstanding ride.

A comprehensive resource of physical education games designed to help children in grades K-8 develop the skills important to performing a wide variety of team and lifetime sports.

'I am blown away by the level of detail Phil Cavell brings to his work.' Elinor Barker MBE, multiple world champion and Olympic gold medallist 'Phil is eminently qualified to write the Midlife Cyclist. Well, he is certainly old enough.' Fabian Cancellara, Tour de France rider and two-time Olympic champion 'An amazing accomplishment... a simple-to-understand précis of your midlife as a cyclist – you won't want to put it down.' Phil Liggett, TV cycling commentator 'I'm determined to grow old gracefully in lycra, and Phil Cavell has been helping me to do it successfully for years.' Gary Kemp Renowned cycling biomechanics pioneer, Phil Cavell, explores the growing trend of middle-aged and older cyclists seeking to achieve high-level performance. Using contributions from leading coaches, ex-professionals and pro-team doctors, he produces the ultimate manifesto for mature riders who want to stay healthy, avoid injury – and maximise their achievement levels. Time's arrow traditionally plots an incremental path into declining strength and speed for all of us. But we are different to every other generation of cyclists in human history. An ever-growing number of us are determined to scale the highest peaks of elite physical fitness into middle-age and beyond. Can the emerging medical and scientific research help us achieve the holy triumvirate of speed and health with age? The Midlife Cyclist offers a gold standard road-map for the mature cyclist who aims to train, perform and even race at the highest possible level.

Finally, the solution to the #1 reason we don't exercise: time. Everyone has one minute. A decade ago, Martin Gibala was a young researcher in the field of exercise physiology—with little time to exercise. That critical point in his career launched a passion for high-intensity interval training (HIIT), allowing him to stay in shape with just a few minutes of hard effort. It also prompted Gibala to conduct experiments that helped launch the exploding science of ultralow-volume exercise. Now that he's the worldwide guru of

Where To Download Fit To Ride In 9 Weeks The Ultimate Exercise Plan Achieve Straightness Suppleness And Stamina In The Saddle

the science of time-efficient workouts, Gibala's first book answers the ultimate question: How low can you go? Gibala's fascinating quest for the answer makes exercise experts of us all. His work demonstrates that very short, intense bursts of exercise may be the most potent form of workout available. Gibala busts myths ("it's only for really fit people"), explains astonishing science ("intensity trumps duration"), lays out time-saving life hacks ("exercise snacking"), and describes the fascinating health-promoting value of HIIT (for preventing and reversing disease). Gibala's latest study found that sedentary people derived the fitness benefits of 150 minutes of traditional endurance training with an interval protocol that involved 80 percent less time and just three minutes of hard exercise per week. Including the eight best basic interval workouts as well as four microworkouts customized for individual needs and preferences (you may not quite want to go all out every time), The One-Minute Workout solves the number-one reason we don't exercise: lack of time. Because everyone has one minute.

Here is the perfect book for beginning riders who are using muscles they never knew they had before, advanced riders who want to stay in top form (especially as they get older), and weather-bound riders who want to be fit when spring arrives. The Rider's Fitness Program details a fun and effective six-week program that strengthens the muscles riders use while improving overall balance, flexibility, and coordination. The book features more than 85 exercises designed to help new riders get over the aches and pains of getting started and experienced riders hone their skills and technique and prevent injuries. The routines are flexible, so you can customize the workout you need for jumping, dressage, reining, endurance, polo, or rodeo. The exercises are accompanied by step-by-step photographs that demonstrate how to perform each action properly (with an emphasis on safety). They progress from basic to advanced and are suitable for riders at all fitness levels. The authors also include fundamental information on diet, general health and safety, and clothing and equipment.

Through humor, whimsical story-telling and spiritual insight Joseph Fehlen shares his journey of becoming a motorcyclist at the age of 34. A man with a family, career, and perfectly normal life gets permission from his mom and wife, trades in his car for a motorcycle and begins an adventure that teaches him lessons about life, faith and what really matters most. Ride On is filled with a

whole cast of endearing characters complemented by the intricacies of the motorcycle culture. In a garage logic sort of way, Joseph interweaves the lessons he learned with those Jesus modeled, creating a tapestry of learning opportunities for the reader. With uncanny clarity these real life situations will assist even those who have never ridden a motorcycle, or even plan to experience one of life's greatest joys. Come and join him as you ride on! A book about a brilliant invention - the bicycle. A book about the joys of cycling, a book that peels back the myths of the cycling fraternity. A book about being a boy on a bike or a girl on a bike. A book that states that the bicycle is for everybody to enjoy not just the Carbon Fiber Cowboys and the Lycra Loonies

The book begins with an educational theory guide, to help deepen your understanding of why your horse is acting the way he does and what his motivating factors are. Following the theory guide are over 77 Solutions for herd bound behavior. Included in these solutions are exercises divided into sections individualized to how your horse is kept; Stall, Pasture, Pair bonded, etc. It also includes strategies for riding, Emergency "In the moment" solutions and pages to record your progress on. These strategies can be used with each member of the herd, this is most valuable in situations where a single buddy horse is left behind. By using the exercises, programs and approaches you can create horses that are more self confident and able to be separated with more ease and relaxation. I am incredibly excited to get this information in the hands of horse lovers who struggle with this frustrating and destructive issue! There is nothing more peaceful then hearing horses munching on grass instead of screaming for their herd mate!

Fast After 50 is for every endurance athlete who wants to stay fast for years to come. For runners, cyclists, triathletes, swimmers, and cross-country skiers, getting older doesn't have to mean getting slower. Drawing from the most current research on aging and sports performance, Joe Friel—America's leading endurance sports coach—shows how athletes can race strong and stay healthy well past age 50. In his groundbreaking book *Fast After 50*, Friel offers a smart approach for athletes to ward off the effects of age. Friel shows athletes how to extend their racing careers for decades—and race to win. *Fast After 50* presents guidelines for high-intensity workouts, focused strength training, recovery, crosstraining, and nutrition for high performance: How the body's response to training changes with age, how to adapt your training plan, and how to avoid overtraining How to shed body fat and regain muscle density How to create a progressive plan for training, rest, recovery, and competition Workout guidelines, field tests, and intensity measurement In *Fast After 50*, Joe Friel shows athletes that age is just a number—and race results are the only numbers that count. With contributions from: Mark Allen, Gale Bernhardt, Amby Burfoot, Dr. Larry Creswell, John Howard, Dr. Tim Noakes, Ned Overend, Dr. John Post, Dr. Andrew Pruitt, and Lisa Rainsberger.

There are many books and resources dedicated to the sport of Road Cycling and Triathlon racing, but none which I know of dedicated to training and racing for Track Cycling. Track Cycling is a niche / cult sport in the US and probably in other Countries; maybe that is why no one has bothered writing a book for this rather small target audience. The information in this book was

Where To Download Fit To Ride In 9 Weeks The Ultimate Exercise Plan Achieve Straightness Suppleness And Stamina In The Saddle

gleaned over the years and comes from a variety of sources. It would certainly be great to have a comprehensive book dedicated to tactics & training for Track Cycling. Many new comers to the track have to learn by trial and error which can become quite time consuming and expensive. Track coaches are rare and costly, and only available to elite riders or those who can afford them. Hopefully this book can give you some direction on how to proceed into the fast paced world of Track Cycling.

Cycling as a way of life and mode of transportation is on the rise in city after city around the world. For those looking to dip their proverbial toes into the waters of urban cycling the prospect at times can be rather intimidating. What kind of bike should I ride? A skinny-wheeled high-end road bike? A fixie? A chunky city commuter bike? A department store bike? How about fashion? Do I have to wear brightly colored skin-tight Lycra outfits? Can I just wear normal clothes? How do I lug my gear around? The Bohemian Guide to Urban Cycling takes the reader into the world and workings of cycling in the city to uncover the essentials to how to join in on the cycling revolution. Your bicycling guide on this journey is a card-carrying bohemian living in Portland. By using the bike-crazy city of Portland as the backdrop, this book covers all of the basics needed to bike comfortably in the city and to know what the heck you're talking about ... from bike selection to fashion to bike lanes to gentrification and more. After reading this you'll know precisely what to ride, how to ride, what to wear, and how to talk like an insider. Well, maybe not, but it'll still be a fun journey together. But this book is more than about urban-cycling fashion and high-end bikes. It also plunges headlong into conversations about mobility, equity, race, and justice. If there is going to be a book about all-things cycling in the city it must delve into these uncomfortable topics in order to develop a more holistic view of urban cycling. The bottom line must be to affirm all kinds of people pedaling through the streets of our cities on anything that rolls.

Chris Carmichael has trained many of the world's best cyclists, and now he offers his invaluable training tips, cutting-edge workout programs, and state-of-the-art exercises to help readers find their ultimate ride. In this book, he gives riders of all abilities an insider's guide to getting fitter, faster, and on to the champion's platform. With photographs and illustrated exercises, The Ultimate Ride helps build a strong foundation for incremental leaps in fitness, times, and techniques. Nutritional advice, goal-setting methods, and mental exercises complement the physical training tips, to make this the only cycling fitness book an enthusiast will ever need.

"A Long Ride Coming" is a deeply personal memoir filled with poignancy and tinged with wry humor. The book takes the reader on a 1,900 mile bicycle ride from the Golden Gate Bridge to the Mexican border and then from Canada through Washington, Oregon, and California. The journey meets steep, challenging terrain and memorable, once-in-a-lifetime characters. But the book is much more than a story about a bicycle trip. "A Long Ride Coming" unveils a tribute to a father who died when the author was just 18 years old. When told by a doctor to keep the news of his father's terminal illness a secret, the deception led to nearly 50 years of regret and despair. Testing his stamina and age, the bike ride begins at the Golden Gate Bridge on September 11, 2014 and ends nearly exactly one year later on the Golden Gate. In between, the author finds solace and a fitting tribute to a father who died too soon. From the book: The doctor left the room and left my mother, my brother, and myself to fend for ourselves. Fend off such

assaults as when just a few days later, the surgeon summoned us to his office. My father was still in the hospital, still reeling from his surgery, when the doctor in all of his professorial genius opined that we were not to tell my father of his terminal disease. "Keep it to yourselves," he said in whispered, conspiratorial, haunting tones. "The patient shouldn't know. If he did, his last few months would be even more uncomfortable." So when my father returned home and for a brief time felt good and hopeful, even going back to work for several days, his wife and two sons had the insufferable burden of lying to him. "I'm so damn glad the worst part is over," he'd say during his short reprieve. "I told you I'm going to beat this thing..." But we were committed to obeying doctor's orders, committed to the code of silence.

Mason's Backyard Workout is a story about a mouse name Mason who decides to have a backyard workout get-together with all of his animal friends after seeing a commercial on TV about how everyone needs to move and exercise. Mason asks his friend Ellen, the eagle, to help get the word out by dropping invitations to all his friends. His friends were excited about the backyard workout. The story uses a variety of animals who participate in Mason's exercise fun with each one adding an exercise that they enjoy doing. As children experience Mason's Backyard Workout they will meet Mason the mouse and his animal friends and engage their imaginations in a way that will encourage them to have their own exercise fun.

A question I frequently hear asked is "Why do men over the age of 40 struggle to lose weight?" And it is a fair question. That was about the time in my life when I had to start watching my weight. Now that I'm 65, it isn't getting any easier either as the years tick by. But with a lot of work, it is doable to keep your weight down and fitness level up. The chapters in this book show you how. If you're a male in your forties or older, you definitely know the struggle is real. It doesn't matter if you were an athlete back in college or even a soldier back in the day as I was for 36 years ... you will notice changes in your body. You'll find it easier to gain weight and more difficult to lose it. If you do workout, you'll find it more difficult to do the same things you used to do with ease. The weights will seem heavier. Your stamina will have dropped. You'll feel less energetic and driven. The only consolation here is that whatever you may be feeling is very normal. It's part and parcel of aging. Let's look at why a man has a tougher time losing weight once he crosses forty. In this book I'll show you what foods you should be eating and the exercise schedule you need to get and stay in shape as you continue through your middle age and into your senior years. It is possible to get in shape or stay in shape as you continue to age.

Regardless of discipline, level of expertise, training philosophy, body shape, or fitness level, all riders do better—in horse-related activities on the ground and in the saddle—when they take care of their bodies and maintain their fitness. While riding is a great way to enjoy an active lifestyle, on its own it is not enough to condition and tone the body to the degree we need, and then the horse must make up the fitness gap in our physical partnership. If our reflexes are slow, if our bodies fatigue, if our position collapses, if tension patterns appear, then the horse suffers repetitive asymmetrical strain or develops compensatory movement habits. It is for his good, as well as ours, that certified personal trainer and riding coach Heather Sansom has developed an utterly achievable 9-week plan to give every rider the straightness, suppleness, strength, and stamina she needs to ride her best. With hundreds of one-of-a-kind illustrations depicting accurate musculature on the rider's body, and dozens of proven exercises organized in a progressive fitness program with easy-to-use schedule charts, Sansom's book is the key to enjoying the ride, being fair to your horse, and getting into fabulous shape—in nine weeks!

The Time-Crunched Cyclist reveals the fastest way to get fit for road racing, century rides, gravel grinders, cyclocross, Gran Fondos, and mountain bike events. With elite cycling coach Chris Carmichael's innovative, time-saving approach, busy cyclists will develop fitness, speed, and power in just 6 hours a week. Now powered by Strava, this updated third edition of The Time-Crunched Cyclist training program taps into the most popular cycling social network to help cyclists get fired up to crush their workouts, one segment at a time. Through his popular endurance coaching service, Carmichael noticed that many busy cyclists are unable to make performance gains using conventional training methods; they simply don't have enough time to train. So CTS developed a new approach—the Time-Crunched Training Program—to help cyclists achieve competitive fitness and power without the impossible time demands of traditional training methods. The Time-Crunched Cyclist shows cyclists how to build fitness on a

realistic schedule by tapping the power of high-intensity interval training (HIIT) workouts. Cyclists learn the science behind this alternative approach to training before performing the CTS field tests to get a baseline reading of their fitness. Nine comprehensive training plans include effective time-crunched workouts, nutrition guidelines, and strength training to develop the speed and endurance for a wide variety of cycling races and events. The new Time-Crunched Training Plans cover: · New and Experienced plans for criteriums, road races, and cyclocross · New, Experienced, and Competitive plans for century rides and Gran Fondos · Gravel racing and ultraendurance mountain biking plans · Intermediate and Advanced plans for commuters This new, third edition integrates Strava, the popular ride tracking and analysis program. Powered by Strava, the Time-Crunched program becomes interactive, social, highly motivating—and focuses riders on the training data that matters most. It also adds the Time-Crunched Diet, a sports nutrition approach designed to help riders optimize their power-to-weight ratio with new guidelines on eating behaviors and delicious recipes from chefs Michael Chiarello and Matt Accarrino. A new chapter on hydration and managing heat stress will show athletes simple ways to avoid overheating that lead to better performance. The Time-Crunched Cyclist can help you capture your best performance—all in the time you have right now.
