Four Corners is a bare-knuckled debut novel about life, love, and violence along four states of the American southwest — both a savage, mean-streets thriller and a heartbreaking story of unfortunate love. For the better part of thirty-seven years, Frank Bruce has hobbled through life, dragging his hunger for

amphetamines, alcohol, and crime behind him like a heap of tarnished weight. Now, emboldened by the love of his child-fiancé Maddie Nicole, Frank goes on the run through the drug underworld of the Southwest trying to save a young boy from his meth-riddled father and casino mogul grandfather. Caught in a cat-and-mouse chase but still determined to protect what he loves, Frank seeks help from his onetime mentor, legendary drug kingpin Jon Santer. But in doing so, Frank triggers a vile reckoning with his terrible, violent past.

Read me...Read me...Read me and be hypnotized by me. Let your intellectual nipple be open and free so I may tickle it. You may ask yourself in reading this,

"Where exactly is my intellectual nipple?" Then you may say to yourself, "Well, if I don't know where my intellectual nipple is then I guess I'm not very intellectual," and you would be right, you aren't. But the intellectual nipple is quite elusive and ironic, and it is just that last thought that may help you to discover your intellectual nipple. Cary Smith will take you on a ride down his life and mind (and it won't be as creepy as it sounds). Along the way you may giggle, you may hate, you may love, and most likely in the amount of time it will take you to read this book, you will fart...this book does not consider itself prestigious or boring enough to deny that fact. Cary Smith will guide you along the way to possibly having your intellectual nipple tickled. Brad Cruise will uninvitingly add stuff to the text and make corrections as a special guest corrector. And most importantly, your intellectual nipple will be tickled, maybe? And according to Brad Cruise, the key to finding out where your intellectual nipple is is to realize that Cary Smith is poop and a writer not worthy of the very worthy literary world which sometimes makes people very sleepy. Once you have this realization your intellectual nipple will bask in tickling pleasure. (That is, if you consider tickling to be pleasurable, because many people don't, and, in fact, many find it torturous.) Just a warning from this summary: if you do find out where your intellectual nipple is (as everyone's intellectual nipple is not in the same place), it is recommended that

you not tickle it too much unless you've had a few cocktails. If you just read this summary and said, "What in the hell?" then you are on your way to a discovery of the elusive intellectual nipple. This summary has exhausted itself and is tired of saying, "The elusive intellectual nipple." Please enjoy The Book, hate it very, very much, or go somewhere in the middle with your opinion of it.

Beyond Training examines the nature of second language teacher development and how teachers' practices are influenced by their beliefs and principles. It seeks to move discussion of language teacher development beyond the level of "training," which reflects a technical view of specific teaching practices. Instead, it takes a more holistic approach to teacher development built on the notion of the teacher as critical and reflective thinker. The argument pursued throughout is that teacher education needs to engage teachers not merely in the mastery of techniques, but in an exploration of the knowledge, beliefs, and attitudes that underly their teaching practices.

Since the General Agreement on Trade in Services (GATS) was created in 1995, there has been international pressure towards the liberalization of education all over the world, as well as new challenges to the traditional internationalization rationale in the field of higher education. Nevertheless, education liberalization under the GATS is also a contested process. Public universities, teachers unions, development NGOs and other education stakeholders have opposed and campaigned against the GATS in different countries and at a range of levels from local to global. Based on intensive fieldwork in the WTO headquarters and on two case studies (Argentina and Chile), Antoni Verger opens the black-box of the GATS negotiations in the field of education.
