

History Alive Guide To Reading Notes 29

A much-needed and delightful book. It shows how history can be taught with the meaningful experiences of each child at its centre, making connections between the child, the locality and community, the national and global past and concepts of time. Throughout the authors empower teachers to adopt their philosophy, by showing them how to plan, select resources and strategies and reflect on ideas and case studies. Hilary Cooper, Emeritus professor of history and pedagogy, The University of Cumbria, UK. Bringing History Alive through Local People and Places puts the local environment and community at the heart of history, showing how it can be used as the context for successful history teaching across the primary age range. It considers how to develop children's concepts and skills through local history, how to link local, national and global aspects of history, and helps you develop your own historical knowledge, understanding and confidence in teaching the subject. Practical topics explored include: Investigating children's cultural and geographical roots through fieldwork Finding and visiting local museums, archives and heritage sights Choosing and using resources Using significant people, events and buildings to link with national history Environmental education and sustainable development through local history Understanding the links between history and everyday life Planning and assessing history. Based on the latest research and practice in the field, Bringing History Alive through Local People and Places offers an exciting template of creative ideas and activities to show teachers how they can make history relevant to all children.

The New York Times bestselling and National Book Award winning *In the Heart of the Sea*, soon to be a major motion picture directed by Ron Howard, adapted by the author for young readers. On November 20, 1820, the whaleship *Essex* was rammed and sunk by an angry whale. Within minutes, the twenty-one-man crew, including the fourteen-year-old cabin boy Thomas Nickerson, found themselves stranded in three leaky boats in the middle of the Pacific Ocean with barely any supplies and little hope. Three months later, two of the boats were rescued 4,500 miles away, off the coast of South America. Of the twenty-one castaways, only eight survived, including young Thomas. Based on his New York Times best-seller *In the Heart of the Sea*, Nathaniel Philbrick recreates the amazing events of the ill-fated *Essex* through the sailors own first-hand accounts, photos, maps, and artwork, and tells the tale of one of the great true-life adventure stories. "Horribly engrossing." —Kirkus Reviews "A compelling saga of desperation and survival." —School Library Journal

School and public libraries often provide programs and activities for children in preschool through the sixth grade, but there is little available to young adults. For them, libraries become a place for work—the place to research an assignment or find a book for a report—but the thought of the library as a place for enjoyment is lost. So how do librarians recapture the interest of teenagers? This just might be the answer. Here you will find theme-based units (such as *Cartoon Cavalcade*, *Log On at the Library*, *Go in Style*, *Cruising the Mall*, *Space Shots*, *Teens on TV*, and 44 others) that are designed for young adults. Each includes a display idea, suggestions for local sponsorship of prizes, a program game to encourage participation, 10 theme-related activities, curriculum tie-in activities, sample questions for use in trivia games or scavenger hunts, ideas for activity sheets, a bibliography of related works, and a list of theme-related films. The units are highly flexible, allowing any public or school library to adapt them to their particular needs.

The Book of the Dead is an ancient Egyptian funerary text, used from the beginning of the New Kingdom (around 1550 BCE) to around 50 BCE. This Reading & Answer Book is for the student of hieroglyphs who wishes to extend their translation skills using real ancient Egyptian texts. The pages contain the hieroglyphic text, phonetic translation, literal and full translations and should be used with the accompanying Student Work Book which contains only the hieroglyphic text and phonetic translation. Most of the text is taken from the Papyrus of Any: The papyrus of Anwy (Any) was found at Thebes and was purchased by the British Museum in 1888. It measures 78 feet by 1 foot 3 inches and is the longest papyrus of the Theban Period. It is made up of 6 individual parts. It contains a number of chapters of the Book of the Dead, mostly accompanied by illustrations. The titles of the chapters in the papyrus are written in red. In the following texts a phonetic (grey) translation of the hieroglyphs is provided to aid word identification in the Student Work Book and in the Reading & Answer Book, an English transliteration and a full literal translation is given for reading and study. This work is taken from the Papyrus of Anwy and other sources to complete the utterances of the Book of the Dead.

Current educational reforms have given rise to various types of "educational Taylorism," which encourage the creation of efficiency models in pursuit of a unified way to teach. In history education curricula, this has been introduced through scripted textbook-based programs such as Teacher Curriculum Institute's History Alive! and completely online curricula. They include the jargon of authentic methods, such as primary sources, cooperative learning, differentiated instruction, and access to technology; yet the craft of teaching is removed, and an experience that should be marked by discovery and reflection is replaced with comparatively empty processes. This volume provides systematic models and examples of ways that history teachers can compete with and effectively halt this transformation. The alternatives the authors present are based on collaborative models that address the art of teaching for pre-service and practicing secondary history teachers as well as collegiate history educators. Relying on original research, and a maturing body of secondary literature on historical thinking, this book illuminates how collaboration can create real historical learning.

Stephen Nichols wants to help readers experience the Bible more fully. He writes: "We have been given a book that is unlike any other book in human history, a book that transcends all human wisdom, insight, and expertise. We have been given the Word of God, the words of eternal life. And we, all of us, are invited to take up and read these words." *Welcome to the Story* teaches believers not only how to read the Bible, but how to read it in such a way that it permeates their lives—reading, loving, and living God's Word. Discussion includes an explanation of the four "chapters" of the biblical narrative—creation, fall, redemption, and restoration—guidelines on how to interpret Scripture, why we're to love God's Word, and how we're to live and proclaim the story in word, deed, and mission. This practical guide to reading the Bible is a great resource for young and new believers and those wanting to get more out of God's Word.

Reading Contemporary African Literature brings together scholarship on, critical debates about, and examples of reading African literature in all genres – poetry, fiction, and drama including popular culture. The anthology offers studies of African literature from interdisciplinary perspectives that employ sociological, historical, and ethnographic besides literary analysis of the literatures. It has assembled critical and researched essays on a range of topics, theoretical and empirical, by renowned critics and theorists of African literature that evaluate and provide examples of reading African literature that should be of interest to academics, researchers, and students of African literature, culture, and history amongst other subjects. Some of the essays examine authors that have received

little or no attention to date in books on recent African literature. These essays provide new insights and scholarship that should broaden and deepen our understanding and appreciation of African literature.
