Photography is now more popular than ever thanks to the rapid development of digital cameras. Read This If You Want to Take Great Photographs is ideal for this new wave of shooters using DSLR, compact system and bridge cameras. It contains no graphs, no techie diagrams and no camera-club jargon. Instead, it inspires readers through iconic images and playful copy, packed with hands-on tips. Split into five sections, the book covers composition, exposure, light, lenses and the art of seeing. Masterpieces by acclaimed photographers – including Henri Cartier-Bresson, Sebastião Salgado, Fay Godwin, Nadav Kander, Daido Moriyama and Martin Parr – serve to illustrate points and encourage readers to try out new ideas. Today's aspiring photographers want immediacy and see photography as an affordable way of expressing themselves quickly and creatively. This handbook meets their needs, teaching them how to take photographs using professional techniques.

In this book, the authors explore and discuss the development of one of the most interesting and dynamic of photographic genres. Hailed as a landmark work when it was first published in 1994, *Bystander* is widely regarded by street photographers as the "bible" of street photography. It covers an incredible array of talent, from the unknowns of the late 19th century to the acknowledged masters of the 20th, such as Atget, Stieglitz, Strand, Cartier-Bresson, Brassai, Kertész, Frank, Arbus, Winogrand, and Levitt to name just a few. In this new and fully revised edition, the story of street photography is brought up to date with a re-evaluation of some historical material, the inclusion of more contemporary photographers, and a discussion of the ongoing rise of digital photography.

A safe haven for the queer community and a getaway for artists, the beach town of Provincetown, Massachusetts is a place defined by openness and tolerance. Throughout the late 1970s and early '80s, Joel Meyerowitz spent his summers there, roaming the seaside with an 8-by-10 camera, making exquisite, sharply observed portraits of Provincetown's progressive community. *Provincetown* collects one hundred portraits, most never before published, bringing viewers into an idyllic world of self-styled individualism.

Tod Papageorge: Dr. Blankman ?s New York documents a brief but critical moment in the photographer's early career, the two years Papageorge shot in color in New York in the late 1960s. Black-and-white photography was still the "serious" medium, and color reserved for commercial applications;

Papageorge--25 years old and newly arrived in New York City--was encouraged by his fellow photographers to seek paying magazine work by developing a body of work in color. In some ways it was a failed experiment: Papageorge mostly approached color in the same way as he approached black and white, except that he also began to intuitively produce still-life pictures with little commercial appeal, spotlighting canned hams in shop windows and political posters. But

color offered Papageorge the opportunity to work in a new medium at a time of great social, political and cultural change. "I'd like to think that, in Dr. Blankman ?s New York, you'll find a persuasive account of what it meant for me to be free with a Leica in the streets of my newly adopted home of Manhattan," writes Papageorge, "a record drawn with Kodachrome film and its rich, saturated colors." Tod Papageorge (born 1940) picked up photography for the first time as a student at the University of New Hampshire. He is the recipient of two Guggenheim Fellowships and two National Endowment for the Arts Fellowships. From 1979 to 2013 Papageorge served as Yale University's Walker Evans Professor of Photography and Director of Graduate Study in Photography. Published on the occasion of an exhibition held at the NRW-Forum Deusseldorf, September 27, 2014 - January 11, 2015.

Where I Find Myself is the first major single book retrospective of one of America's leading photographers. It is organized in inverse chronological order and spans the photographer's whole career to date: from Joel Meyerowitz's most recent picture all the way back to the first photograph he ever took. The book covers all of Joel Meyerowitz's great projects: his work inspired by the artist Morandi, his work on trees, his exclusive coverage of Ground Zero, his trips in the footsteps of Robert Frank across the US, his experiments comparing color and black and white pictures, and of course his iconic street photography work. Joel Meyerowitz is incredibly eloquent and candid about how photography works or doesn't, and this should be an inspiration to anyone interested in photography. "Jay puts his amazing insights and learning from a lifetime behind the lens into a book that communicates the three most important aspects of street photography ... This isn't a book about f-stops or ISOs. It's about seeing. It's about being surrounded by the ordinary and learning to find the extraordinary. It's about training your mind, and your eyes, to see and capture the world in a way that delights, engages, and captivates your viewers ... your key to opening another level of understanding, appreciation, wonder and creativity as you learn to express yourself, and your view of the world, through your camera"--Publisher's description.

photographs of St Louis and his unparalleled documentation of Ground Zero Introduction charts Meyerowitz's development and sets his work within a broader context of the history of photography Meyerowitz's own writings provide context, anecdotes and instructive commentary on the photographer's motivations, influences and defining images for a uniquely personal insight

Aimed at children between the ages of eight and twelve, "Seeing Things" is a wonderful introduction to photography that asks how photographers transform ordinary things into meaningful moments. In this book, acclaimed and beloved photographer Joel Meyerowitz takes readers on a journey through the power and magic of photography: its abilities to freeze time, tell a story, combine several layers into one frame and record life's fleeting and beautiful moments. The book features the work of masters such as William Eggleston, Mary Ellen Mark, Helen Levitt and Walker Evans, among many others. Each picture is accompanied by a short commentary, encouraging readers to look closely and use their imagination to understand key ideas in photography such as light, gesture, composition-and, ultimately, how there is wonder all around us when viewed through the lens. Joel Meyerowitz (born 1938) is an award-winning photographer whose work has appeared in over 350 exhibitions in museums and galleries around the world. He is a two-time Guggenheim Fellow, a recipient of both National Endowment for the Arts and National Endowment for the Humanities awards and a recipient of the Deutscher Fotobuchpreis. He has published over 15 books and divides his time between New York and Italy.

In this innovative synthesis of words and images, the award-winning author of *Open City* and photography critic for *The New York Times Magazine* combines two of his great passions. One of *Time's* Top 10 Non-Fiction Books of the Year • One of *Smithsonian.com's* Ten Best Photography Books of the Year When it comes to Teju Cole, the unexpected is not unfamiliar: He's an acclaimed novelist, an influential essayist, and an internationally exhibited photographer. In *Blind Spot*, readers follow Cole's inimitable artistic vision into the visual realm as he continues to refine the voice, eye, and intellectual obsessions that earned him such acclaim for *Open City*. Here, journey through more than 150 of Cole's full-color original photos, each accompanied by his lyrical and evocative prose, forming a multimedia diary of years of near-constant travel: from a park in Berlin to a mountain range in Switzerland, a church exterior in Lagos to a parking lot in Brooklyn; landscapes and interiors, beautiful or quotidian, that inspire Cole's memories, fantasies, and introspections. Ships in Capri remind him of the work of writers from Homer to Edna O'Brien; a hotel room in Wannsee brings back a disturbing dream about a friend's death; a home in Tivoli evokes a transformative period of semi-blindness, after which "the photography changed. . . The looking changed." As exquisitely wrought as the work of Anne Carson or Chris Marker, *Blind Spot* is a testament to the art of seeing by one of the most powerful and original voices in contemporary literature. Praise for *Blind Spot* "Common things [are] made radiant by the quality of Cole's looking. . . . In this

Cape Light, Joel Meyerowitz's series of serene and contemplative color photographs taken on Cape Cod, Massachusetts, quickly became one of the most influential and popular photobooks in the latter part of the 20th century after its publication in 1978,

breaking new ground both for color photography and for the medium's acceptance in the art world. Now, more than 35 years later, Joel Meyerowitz: Cape Light is back. This edition features all the now-iconic images, newly remastered and luxuriously printed in a larger format. In Cape Light, everyday scenes--an approaching storm, a local grocery store at dusk, the view through a bedroom window--are transformed by the stunning natural light of Cape Cod and the luminous vision of the photographer. Though Meyerowitz had begun shooting in color on the streets of New York a decade earlier, it was this collection of photographs that brought his sensitive color photography to wider notice. Meyerowitz is a contemporary master of color photography, and this powerful, captivating photobook is a classic of the genre.

Gathers color photographs of summer landscapes and people relaxing at the beach and in their yards

Over the last seven years, Melissa O'Shaughnessy has photographed daily on the streets of New York. As one of a growing number of women street photographers contributing to this dynamic genre, O'Shaughnessy enters the territory with clarity and a distinctly humanist eye, offering a refreshing addition to the tradition of street photography. Through her curious and quirky vision, we witness the play of human activity on the glittering sidewalks of the city. Woven into her cast of characters are the lonely, the soulful, and the proud. She has fallen for them all--perfect strangers.

Many of Helen Levitt's classic pictures of New York City are world-famous, but there are many more unknown Levitts, the bulk of which are the subject of this book. Here and There brings together 105 rarely-seen pictures chosen by the photographer herself.

More than ninety of these photographs have never been published before. During seven decades of picture making, Levitt occasionally photographed outside of New York (including an extended stay in Mexico City), but her chosen subject has always been the people and streets of her hometown. Adam Gopnik in *The New Yorker* noted that Levitt's photographs "have the quality of frozen street-corner conversations: she went out, saw something wonderful, came home to tell you all about it, and then, frustrated, said, 'You had to be there,' and you realize, looking at the picture, that you were." For *Here and There* Adam Gopnik reflected anew on Levitt's work, eliciting fascinating parallels with Parisian street photography, the abstract painting for which New York city is famous, the writers and artists of the generation of the 1940s (including Levitt's friends James Agee and Walker Evans, both pictured in this book), and, most importantly, with the daily lives of ordinary New Yorkers as lived in the shadows of its skyline: "When people, a century or two hence, want to know what it felt like to live here and there in that valley, they will turn to Helen Levitt's photographs to find out."

"This Equals That ... takes viewers on a whimsical journey, while introducing them to the fundamentals of visual literacy and teaching them associative thinking"-- Aperture learning guide.

Made for young readers, five to eight years old, this book features portraits that celebrate the diverse beauty of human skin. By depicting people from all over the world against a background that matches their skin tone, Angélica Dass challenges the racially charged colors we use to describe race. What does it mean to be seen as "white," "black," "yellow," "red," or "brown"? The pictures show how people and humanity are much richer and more complex than these categories, rendering the labels we use absurd. This book also reveals how every conceivable skin color in the world can be recreated from a mix of only three colors, which we all share. Through Dass's words and pictures, the book celebrates diversity as humankind's most powerful resource and inspires readers to rethink how we see each other.

Garry Winogrand—along with Diane Arbus and Lee Friedlander—was one of the most important photographers of the 1960s and 1970s, as well as one of the world's foremost street photographers. Award-winning writer Geoff Dyer has admired Winogrand's work for many years. Modeled on John Szarkowski's classic book *Atget, The Street Philosophy of Garry Winogrand* is a masterfully curated selection of one hundred photographs from the Winogrand archive at the Center for Creative Photography, with each image accompanied by an original essay. Dyer takes the viewer/reader on a wildly original journey through both iconic and unseen images from the archive, including eighteen previously unpublished color photographs. The book encompasses most of Winogrand's themes and subjects and remains broadly faithful to the chronological and geographical facts of his life, but Dyer's responses to the photographs are unorthodox, eye-opening, and often hilarious. This inimitable combination of photographer and writer, images and text, itself offers what Dyer claims for Winogrand's photography—an education in seeing.

This archive of pictures is the only existing photographic record of Ground Zero after the attacks on the World Trade Center on September 11th 2001. Fenced off and classified as a crime scene, the area was closed to all photographers, and only scant information was available about the activities in the guarded enclosure that became known as "the forbidden city." Through sheer persistence involving almost daily acts of resourcefulness and defiance, Joel Meyerowitz became the sole photographer to have continued access to the site and describe its transformation over the next nine months from a place of total devastation to cleared bedrock. Published to coincide with the fifth anniversary of the World Trade Center attacks, this book serves not only as an elegy to the thousands who lost their lives, but also

celebrates the tireless effort and bravery of the thousands of police officers, fire fighters, construction workers, engineers, and volunteers who assisted in the clean-up process. Published in a limited edition of 25 copies, this elegant boxed volume presents Joel Meyerowitz' masterful color photographs of Cézanne's Atelier and the objects, and includes a photograph signed and numbered by the artist. Some years ago, Meyerowitz visited Cézanne's studio in Provence, and experienced a flash of understanding about his art. Cézanne had painted the walls a dark gray, mixing the color himself. Consequently, every object in the studio seemed to be absorbed into the gray of the background. Meyerowitz saw how Cézanne thus flattened perspective. He decided to take each of the objects in the studio and view them against the gray wall. He then arranged them in rows, and made a photographic grid of five rows with five objects on each row. These photographs are at once marvelous photographic still lifes and an incredible revelation of Cézanne's methods.

Please note that all blank pages in the book were chosen as part of the design by the publisher. A good street photographer must be possessed of many talents: an eye for detail, light, and composition; impeccable timing; a populist or humanitarian outlook; and a tireless ability to constantly shoot, shoot, shoot, shoot and never miss a moment. It is hard enough to find these qualities in trained photographers with the benefit of schooling and mentors and a community of fellow artists and aficionados supporting and rewarding their efforts. It is incredibly rare to find it in someone with no formal training and no network of peers. Yet Vivian Maier is all of these things, a professional nanny, who from the 1950s until the 1990s took over 100,000 photographs worldwide—from France to New York City to Chicago and dozens of other countries—and yet showed the results to no one. The photos are amazing both for the breadth of the work and for the high quality of the humorous, moving, beautiful, and raw images of all facets of city life in America's post-war golden age. It wasn't until local historian John Maloof purchased a box of Maier's negatives from a Chicago auction house and began collecting and championing her marvelous work just a few years ago that any of it saw the light of day. Presented here for the first time in print, *Vivian Maier: Street Photographer* collects the best of her incredible, unseen body of work.

From a cuneiform tablet to a Chicago prison, from the depths of the cosmos to the text on our T-shirts, art historian and journalist Lawrence Weschler finds strange connections wherever he looks. The farther one travels (through geography, through art, through science, through time), the more everything seems to converge -- at least, it does through Weschler's giddy, brilliant eyes. Weschler combines his keen insights into art (both contemporary and Renaissance), his years of experience as a chronicler of the fall of Communism, and his triumphs and failures as the father of a teenage girl into a series of essays that are sure to illuminate, educate, and astound.

A child friendly guide to the essentials of photography.

A remarkable document of 1960s Spain by the award-winning photographer Joel Meyerowitz. The colour-photography pioneer Joel Meyerowitz travelled across Spain in 1966 and 1967 taking hundreds of pictures that comprise a remarkable document of 1960s Spain. The time he spent in Spain marked a creative turning point in the photographer's career, and at this time he was taking photographs both in colour and black and white. From 1972 onwards, he would only photograph in colour. The book brings together some 100 images of this initiatory trip, which are divided into four chapters - State, Street, From the car and Flamenco - , and includes texts by Francesco Zanolini and Miguel Lopez-Remiro, as well as an interview between Joel Meyerowitz and Nuria Enguita, the director of *Bombas Gens* (Valencia), where the photographs will be on show from March 2018 until January 2019. AUTHOR: Joel Meyerowitz (New York, 1938) is an award-winning photographer whose work has

appeared in over 350 exhibitions worldwide. As an early advocate of colour photography, Meyerowitz was key in changing the attitude toward the use of colour in the medium. His first book, *Cape Light*, is considered a classic work of colour photography and has sold more than 150,000 copies. He has published 20 other books, including *Legacy: The Preservation of Wilderness in New York City Parks* and his retrospective book, *Taking My Time*. 98 images

'*Street Photography Now*' celebrates the work of 46 image-makers from across the globe. Included are such luminaries as Magnum grandmasters Gilden, Parr and Webb, as well as an international posse of emerging photographers. Four essays and quotes from interviews with the photographers are included--

Discovering Great Artists is a creative collection of easy art-appreciation activities for children. Kids will find 110 amazingly fun and unique projects to experience the styles and techniques of the great masters from the Renaissance to the present. A brief biography of each artist is included with each fully illustrated, child-tested art activity that introduces the featured painting. Artists include painters, sculptors, photographers and more.

The author explains his path to photography, including key career moments and his philosophy of the art, complemented by the portrait, scenic, and artistic photographs that have made him famous.
