A listing of the publications of the university including: official publications, departmental publications, alumni and student publications, publications of the officers, and dissertations.

In the Roaring Twenties, New York City nightclubs and speakeasies became hot spots where traditions were flouted and modernity was forged. With powerful patrons in Tammany Hall and a growing customer base, nightclubs flourished in spite of the efforts of civic-minded reformers and federal Prohibition enforcement. This encounter between clubs and government-generated scandals, reform crusades, and regulations helped to redefine the image and reality of urban life in the United States. Ultimately, it took the Great Depression to cool Manhattan's Jazz Age nightclubs, forcing them to adapt and relocate, but not before they left their mark on the future of American leisure. Nightclub City explores the cultural significance of New York City's nightlife between the wars, from Texas Guinan's notorious 300 Club to Billy Rose's nostalgic Diamond Horseshoe. Whether in Harlem, Midtown, or Greenwich Village, raucous nightclub activity tested early twentieth-century social boundaries. Anglo-Saxon novelty seekers, Eastern European impresarios, and African American performers crossed ethnic lines while provocative comediennes and scantily clad chorus dancers challenged and reshaped notions of femininity. These havens of liberated sexuality, as well as prostitution and illicit liquor consumption, allowed their denizens to explore their fantasies and fears of change. The reactions of cultural critics, federal investigators, and reformers such as Fiorello La Guardia exemplify the tension between leisure and order. Peretti's research delves into the symbiotic relationships among urban politicians, social reformers, and the business of vice. Illustrated with archival photographs of the clubs and the characters who frequented them, Nightclub City is a dark and dazzling study of New York's bygone nightlife.

Explores the homogenization of American culture and the impact of the fast food industry on modern-day health, economy, politics, popular culture, entertainment, and food production.

The Description for this book, Tradition and Authority in the Western Church, 300-1140, will be forthcoming.

EBONY is the flagship magazine of Johnson Publishing. Founded in 1945 by John H. Johnson, it still maintains the highest global circulation of any African American-focused magazine.

Much work has already been done on the conventions and formulae of Old French literature, particularly epic literature, and on parody in the French Middle Ages. This book links these approaches, widens the concept of 'formula', and aims to show that certain authors, far from being enslaved by the conventions within which they worked, were conscious of them and could master them with sufficient independence to exploit them for calculated literary effect, and in particular for parody. It studies the fabliaux, Aucassin et Nicolette and Le Pèlerinage de Charlemagne, texts in which formulae play a varied and subtle part. In the fabliaux we find that formulae borrowed from serious literature add parodic depth to the often simple humour of these tales, but that the genre as a whole is not essentially parodic. Aucassin et Nicolette uses conventions to arouse expectations which may or may not be satisfied; parody proves to be fundamental to this work. The approach shows its full potential when applied to Le Pèlerinage de Charlemagne; study of this text's use of formulae of the epic and romance traditions reveals a high degree of complexity and a finely nuanced parody.

CONSUMER BEHAVIOR combines a foundation in key concepts from marketing, psychology, sociology, and anthropology with a highly practical focus on real-world applications for today's business environment. The new edition of this popular, pioneering text incorporates the latest cutting-edge research and current business practices, including extensive coverage of social media influences, increased consumer power, emerging neuroscience findings, and emotion in consumer decision making.
