This excellent study traces the relation of Latin to other Indo-European languages and guides the reader lucidly through Latin phonology, morphology, and syntax. Yet it is after all true that everybody cannot be a Scipio or a Maximus, with stormings of cities, with battles by land and sea, with wars in which they themselves commanded, and with triumphs to recall. Besides this there is a quiet, pure, and cultivated life which produces a calm and gentle old age. De Vita Beata or 'On the Happy Life' is a dialogue written by Seneca the Younger around the year 58 AD. It was intended for his older brother Gallio, to whom Seneca also dedicated his dialogue entitled *De Ira* ('On Anger'). It is divided into 28 chapters that present the moral thoughts of Seneca at their most mature. Seneca explains that the pursuit of happiness is the pursuit of reason - reason meant not only using logic, but also understanding the processes of nature. This new edition of *De Vita Beata* from Enhanced Media includes an introduction by William Smith.
