24 hours. 2 people. 1 target. It was 10 a.m. when undercover agent Amelia Jennings arrived at the law firm Goldberg & Associates for a job interview. Her mission was to investigate a series of murders involving some well-known lawyers in the City. Her target, an elusive hired killer who had been of interest to the police for months. But her plan is doomed to fall apart before it even starts. In less than twenty-four hours Amelia will be the prey in a man hunt and her destiny will become entwined with Mike Connor's. Their intentions, apparently similar, may prove to be opposite, but the affinity binding them goes beyond what they think they know about each other. One day to survive. One day to let go of the past. This book explores the spatial dimensions of risk, examining the importance and role of 'space' within theories of risk and risk governance. The Spatial Dimensions of Risk discusses a broad range of risks, including natural hazards, climate change, political violence, and state failure. Case studies come from diverse settings globally, from Congo to Central Asia, from tsunami and civil war affected areas in Sri Lanka to avalanche hazards in Austria. The contributors explore the role of space in the causes and differentiations of risk, how we can conceptualize risk from a spatial perspective and the relevance of space and locality for risk governance. Through its exploration of the relationship between the production of risks and the construction of space, the book offers new approaches to theorizing risk and insights in to how better to manage, tolerate and take risks.

In these personal reflections on his thirty years of clinical work with victims of genocide, torture, and abuse in the United States, Cambodia, Bosnia, and other parts of the world, Richard Mollica describes the surprising capacity of traumatized

people to heal themselves. Here is how Neil Boothby, Director of the Program on Forced Migration and Health at the Mailman School of Public Health, Columbia University, describes the book: "Mollica provides a wealth of ethnographic and clinical evidence that suggests the human capacity to heal is innate--that the 'survival instinct' extends beyond the physical to include the psychological as well. He enables us to see how recovery from 'traumatic life events' needs to be viewed primarily as a 'mystery' to be listened to and explored, rather than solely as a 'problem' to be identified and solved. Healing involves a quest for meaning--with all of its emotional, cultural, religious, spiritual and existential attendants--even when bio-chemical reactions are also operative." Healing Invisible Wounds reveals how trauma survivors, through the telling of their stories, teach all of us how to deal with the tragic events of everyday life. Mollica's important discovery that humiliation--an instrument of violence that also leads to anger and despair--can be transformed through his therapeutic project into solace and redemption is a remarkable new contribution to survivors and clinicians. This book reveals how in every society we have to move away from viewing trauma survivors as "broken people" and "outcasts" to seeing them as courageous people actively contributing to larger social goals. When violence occurs, there is damage not only to individuals but to entire societies, and to the world. Through the journey of self-healing that survivors make, they enable the rest of us not only as individuals but as entire communities to recover from injury in a violent world.

A GOOD MORNING AMERICA BOOK CLUB PICK Shortlisted for the 2020 Women's Prize for Fiction "Through a novel with so much depth, beauty, and grace, we, like Ana, are forever changed." —Jacqueline Woodson, Vanity Fair "Gorgeous writing, gorgeous story." —Sandra Cisneros Fifteen-year-old Ana Cancion never dreamed of moving to America, the way the girls she grew up with in the Dominican countryside did. But when Juan Ruiz proposes and promises to take her to New York City, she has to say yes. It doesn't matter that he is twice her age, that there is no love between them. Their marriage is an opportunity for her entire close-knit family to eventually immigrate. So on New Year's Day, 1965, Ana leaves behind everything she knows and becomes Ana Ruiz, a wife confined to a cold six-floor walk-up in Washington Heights. Lonely and miserable, Ana hatches a reckless plan to escape. But at the bus terminal, she is stopped by Cesar, Juan's free-spirited younger brother, who convinces her to stay. As the Dominican Republic slides into political turmoil, Juan returns to protect his family's assets, leaving Cesar to take care of Ana. Suddenly, Ana is free to take English lessons at a local church, lie on the beach at Coney Island, see a movie at Radio City Music Hall, go dancing with Cesar, and imagine the possibility of a different kind of life in America. When Juan returns, Ana must decide once again between her heart and her duty to her family. In bright, musical prose that reflects the energy of New York City, Angie Cruz's *Dominicana* is a vital portrait of the immigrant experience and the timeless coming-of-age story of a young woman finding her voice in the world.

In a small North Carolina town, a mysterious and beautiful woman running from her past slowly falls for a kind-hearted store owner

. . . until dark secrets begin to threaten her new life. When a mysterious young woman named Katie appears in the small North Carolina town of Southport, her sudden arrival raises questions about her past. Beautiful yet self-effacing, Katie seems determined to avoid forming personal ties until a series of events draws her into two reluctant relationships: one with Alex, a widowed store owner with a kind heart and two young children; and another with her plainspoken single neighbor, Jo. Despite her reservations, Katie slowly begins to let down her guard, putting down roots in the close-knit community and becoming increasingly attached to Alex and his family. But even as Katie begins to fall in love, she struggles with the dark secret that still haunts and terrifies her . . . a past that set her on a fearful, shattering journey across the country, to the sheltered oasis of Southport. With Jo's empathetic and stubborn support, Katie eventually realizes that she must choose between a life of transient safety and one of riskier rewards . . . and that in the darkest hour, love is the only true safe haven.

Rumination (recyclic negative thinking), is now recognised as important in the development, maintenance and relapse of recurrence of depression. For instance, rumination has been found to elevate, perpetuate and exacerbate depressed mood, predict future episodes of depression, and delay recovery during cognitive therapy. Cognitive therapy is one of the most effective treatments for depression. However, depressive relapse and recurrence following cognitive therapy continue to be a significant problem. An understanding of the psychological processes which contribute to relapse and recurrence may guide the development of more effective interventions. This is a major contribution to the study and treatment of depression which reviews a large body of research on rumination and cognitive processes, in depression and related disorders, with a focus on the implications of this knowledge for treatment and clinical management of these disorders. * First book on rumination in depressive and emotional disorders * Contributors are the leaders in the field * First editor is a rising researcher and clinician with specialist interest in depression, and second editor is world renowned for his work on cognitive therapy of emotional disorders

The acclaimed authors in this anthology are collectively responsible for dozens of "New York Times" bestsellers. Legendary editor Otto Penzler owns the Mysterious Bookshop in New York and is founder of the Mysterious Press and Otto Penzler books.

"This novel was inspired by the murders of deaf students at Gallaudet University, one of the world's most prestigious learning institutions for the deaf, between 1980 and the early 2000's. The investigating authorities didn't know if the killings were 'inside jobs' and for a time nearly everyone connected to Gallaudet was under suspicion."--Author's note.

In *The Kindness of Women*, a sequel to his award-winning *Empire of the Sun*, young James returns to England at the end of World War II. He stumbles through medical study at Cambridge, trains briefly as an RAF pilot in Canada, and marries. When his wife dies suddenly, Jim is thrust into the violence and sexual promiscuity of the sixties. Penetrating and wise, J. G. Ballard's biting social commentary and pushing of boundaries make this semi-autobiographical novel a small classic.

Thirty years after the Mars exploration mission 'Hera', whose crew died in mysterious circumstances, the ensuing political issues that slowed NASA's race to conquer space have finally ended. This time the five members of the new 'Isis' mission will not travel the 400 million kilometres for a short visit. This time they are destined to become the first colonisers of the Red Planet. The science fiction series "Red Desert", set in the near future, includes four books. The first one, "Point of No Return", is a novella. In what looks like a suicide attempt, Swedish exobiologist Anna Persson, crew member of the Isis, secretly leaves Station Alpha at the crack of dawn to travel deep into the Martian desert in a pressurised rover. As she journeys to the limit of her two day oxygen supply, she shows us memories of events from her past leading up to the mission. Little by little, as time and oxygen run out, she reveals the real Anna. Whatever her goal, wherever it is, will Anna reach her destination? The second book, "Red Desert - People of Mars" (a novel), will be published on 1 September 2014.
