Candid and insightful perspectives on the dilemmas and opportunities women confront as they take on leadership positions Martha Piper and Indira Samarasekera had vastly different career paths on their way to becoming the first (and so far only) female presidents of two of Canada's largest and most respected research universities and directors of some of the nation's largest market cap companies, but what they had in common was their gender, their willingness to take risks when leadership opportunities presented themselves, and a work ethic second to none. It was not always easy, pretty, or fair, but it was always the result of choosing to answer the call to lead. A call that in the authors' view, too many women still turn away from. In *Nerve: Lessons on Leadership from Two Women Who Went First*, Piper and Samarasekera share their personal and professional stories, offering guidance for women leaders of every age and at every stage of their career. *Nerve* is a must-read for any woman who is leading today, considering leading, or thinking about life after leading.

"In this searing meditation on the bonds of family and the danger of extremist faith, one of today's most celebrated Christian writers recounts his unexpected journey from a strict fundamentalist upbringing to a life of compassion and grace—a revelatory memoir in the tradition of *Educated* and *Hillbilly Elegy*. Raised by an impoverished widow who earned room and board as a Bible teacher in 1950s Atlanta, Philip Yancey and his brother, Marshall, found ways to venture out beyond the confines of their eight-foot-wide trailer. But when Yancey was in college, he uncovered a shocking secret about his father's death—a secret that began to illuminate the motivations that drove his mother to extreme, often hostile religious convictions and a belief that her sons had been ordained for a divine cause. Searching for answers, Yancey dives into his family origins, taking us on an evocative journey from the backwoods of the Bible Belt to the bustling streets of Philadelphia; from trailer parks to church sanctuaries; from family oddballs to fire-and-brimstone preachers and childhood awakenings through nature, music, and literature. In time, the weight of religious and family pressure sent both sons on opposite paths—one toward healing from the impact of what he calls a "toxic faith," the other into a self-destructive spiral. Where the Light Fell is a gripping family narrative set against a turbulent time in post-World War II America, shaped by the collision of Southern fundamentalism with the mounting pressures of the civil rights movement and Sixties-era forces of social change. In piecing together his fragmented personal history and his search for redemption, Yancey gives testament to the enduring power of our hunger for truth and the possibility of faith rooted in grace instead of fear"--
