STRATEGY: Winning in the Marketplace is the newest offering from proven authors Thompson, Gamble, and Strickland. As in previous works, the authors' mainstream presentation includes the most recent research in strategy presented in a way that students can understand and apply to business cases and problems. With fewer chapters and pages and shorter cases than previous texts by these authors, this text offers a more concise, lively, and user-friendly presentation of strategic management. Fundamental strengths of Thompson/Gamble/Strickland text treatments are very much evident in this edition—a compelling presentation of Porter's Five-Forces model and globally competitive markets and first-rate coverage of strategy execution and the drive for operating excellence. Another hallmark of this new product is the package of Thompson/Gamble/Strickland cases and related teaching notes. Over the years, this author team has developed a great network of case authors and is able to select from the cream of the crop. Having written scores of cases themselves and having a combined experience of 70 years teaching this particular course, they are very skilled in selecting the types of cases that will spark student interest and generate lively classroom discussions. Many of the cases reflect high profile industries, companies, products, and people that students will have heard of, know about from personal experience, or can easily identify with. The new case line-up features an exciting collection of the latest and best cases flush with valuable teaching points and lessons for students.

The strategy and marketing wisdom of Peter Drucker, compiled into one handy guide Peter Drucker was widely considered the father of modern management. His 39 books and countless scholarly and popular articles predicted many of the major economic developments of the late twentieth century, and his influence upon modern business is almost immeasurable. In The Strategic Drucker, Drucker associate and student Robert Swaim has distilled Drucker's most important business strategies and philosophies into one valuable book. Swaim recounts and compiles Drucker's insight on growth, strategic planning, sales, marketing, innovation, and a wealth of other vital business topics. For anyone who wants to get to know the real Drucker, without digging through all of his books and articles, The Strategic Drucker is a valuable resource. Robert Swaim, PhD (Beijing, China), has taught at numerous universities around the world and collaborated with Peter Drucker in developing an MBA and executive development program for Chinese executives and managers. The distinguishing mark of the 19th edition is its enriched and enlivened presentation of the material in each of the 12 chapters, providing an as up-to-date and engrossing discussion of the core concepts and analytical tools as you will find anywhere. There is an accompanying line-up of exciting new cases that bring the content to life and are sure to provoke interesting classroom discussions, deepening students' understanding of the material in the process. While this 19th edition retains the 12-chapter structure of the prior edition, every chapter – indeed every paragraph and every line – has been re – examined, refined, and refreshed. New content has been added to keep the material in line with the latest developments in the theory and practice of strategic management. In other areas, coverage has been trimmed to keep

the book at a more manageable size. Scores of new examples have been added, along with 16 new Illustration Capsules, to enrich understanding of the content and to provide students with a ringside view of strategy in action. The result is a text that cuts straight to the chase in terms of what students really need to know and gives instructors a leg up on teaching that material effectively. It remains, as always, solidly mainstream and balanced, mirroring both the penetrating insight of academic thought and the pragmatism of real-world strategic management. Overview: The 18th edition of *Crafting and Executing Strategy* represents one of our most important and thoroughgoing revisions ever. The newest member of the author team, Margie Peteraf, led a thorough re-examination of every paragraph on every page of the 17th edition chapters. The overriding objectives were to inject new perspectives and the best academic thinking, strengthen linkages to the latest research findings, modify the coverage and exposition as needed to ensure squarely on-target content, and give every chapter a major facelift. While this 18th edition retains the same 12-chapter structure of the prior edition, every chapter has been totally refreshed. And the chapter content continues to be solidly mainstream and balanced, mirroring both the best academic thinking and the pragmatism of real-world strategic management. Known for its cases and teaching notes, this edition provides an unparalleled case line up of 28 cases. (1) 25 of the 28 cases are brand new or extensively updated for this edition, (2) The selection of cases is diverse, timely, and thoughtfully-crafted and complements the text presentation pushing students to apply the concepts and analytical tools they have read about. (3) Many cases involve high-profile companies. (4) And there's a comprehensive package of support materials that are a breeze to use, highly effective, and flexible enough to fit most any course design. Thompson 18e, your best case scenario!

Crafting & Executing Strategy 22e has a long-standing reputation of being the most teachable text. Its engaging, clearly articulated and conceptually balanced mainstream treatment of the latest developments in theory and practice include the clearest presentation of the value-price-cost framework. Our co-author, Margaret Peteraf, a highly regarded researcher, helped integrate both the resource-based view of the firm from the perspective of both single-business and multi-business strategies.

Most strategic management textbooks seem to stem from the old belief that "more is always better" (tm). But in this age of data deluge, many are calling for a return to the basics. If students can master the core concepts and learn how to apply these basics, they are bound to be better equipped to approach and resolve even the most complex problems. This book, unlike most textbooks, focuses on the core concepts of strategic management, aiming to help students understand the basic ideas of the field more clearly, rather than overloading them with new, peripherally-related information. With cases designed to help students apply their deeper understanding of the core concepts, this book will equip any student with the solid grounding in strategic management

fundamentals needed to succeed in the academic and professional arena.

To stay competitive and meet market expectations in a global economy, both domestic and foreign companies must realign their manufacturing processes, make improvements, and increase their manufacturing capabilities. With large numbers of employees working in a network of domestic and foreign facilities, production processes are as varied as the products being produced. Manufacturing managers need a manufacturing plan or strategy that will bring structure to this complex environment. In *Manufacturing Strategy: How to Formulate and Implement a Winning Plan*, 2nd Edition, John Miltenburg offers a sensible and systematic method to: (1) evaluate domestic and foreign factories and international manufacturing and (2) plan the appropriate manufacturing strategy to be first in the market. Incorporating comments and suggestions from managers who used the first edition of *Manufacturing Strategy*, John Miltenburg expands and improves on his focus in the areas of: International Manufacturing — where the focus is on a company's international network of factories; Competitive Strategy — where managers must understand the role manufacturing strategy plays in their company's business strategy; and Manufacturing Programs — showing how programs such as quality management, six sigma, agile manufacturing, and supply chain management fit within the manufacturing strategy. *Manufacturing Strategy* gives managers a common language for dealing with manufacturing problems at both strategic and operational levels. It improves communication between manufacturing managers and those outside manufacturing (who will now have a better understanding of what manufacturing can and cannot do).

Crafting and Executing Strategy: The Quest for Competitive Advantage, 20e by Thompson, Peteraf, Gamble, and Strickland maintains its solid foundation as well as brings an enlivened, enriched presentation of the material for the 20th edition. The exciting new edition provides an up-to-date and engrossing discussion of the core concepts and analytical tools. There is an accompanying lineup of exciting new cases that bring the content to life and are sure to provoke

interesting classroom discussions and deepen students' understanding of the material in the process. Thompson, Strickland and Gamble's, CRAFTING AND EXECUTING STRATEGY, 15e presents the latest research findings from the literature and cutting-edge strategic practices of companies have been incorporated to keep step with both theory and practice. Scores of new examples have been added to complement the new and updated Illustration Capsules. More chapter-end exercises have been included. The result is a text treatment with more punch, greater clarity, and improved classroom effectiveness. But none of the changes have altered the fundamental character that has driven the text's success over the years. The chapter content continues to be solidly mainstream and balanced, mirroring both the best academic thinking and the pragmatism of real-world strategic management. This paperback version of the text does not contain any cases, but it does include 21 readings from noted business writers that support the concepts in the main text portion. Instructors who would like to create their own case packets to go with this book should go to www.mhhe.com/primis to make their selections.
