Thoreau's Living Ethics is the first full, rigorous account of Henry Thoreau's ethical philosophy. Focused on Walden but ranging widely across his writings, the study situates Thoreau within a long tradition of ethical thinking in the West, from the ancients to the Romantics and on to the present day. Philip Cafaro shows Thoreau grappling with important ethical questions that agitated his own society and discusses his value for those seeking to understand contemporary ethical issues. Cafaro's particular interest is in Thoreau's treatment of virtue ethics: the branch of ethics centered on personal and social flourishing. Ranging across the central elements of Thoreau's philosophy—life, virtue, economy, solitude and society, nature, and politics—Cafaro shows Thoreau developing a comprehensive virtue ethics, less based in ancient philosophy than many recent efforts and more grounded in modern life and experience. He presents Thoreau's evolutionary, experimental ethics as superior to the more static foundational efforts of current virtue ethicists. Another main focus is Thoreau's environmental ethics. The book shows Thoreau not only anticipating recent arguments for wild nature's intrinsic value, but also demonstrating how a personal connection to nature furthers self-development, moral character, knowledge, and creativity. Thoreau's life and writings, argues Cafaro, present a positive, life-affirming environmental ethics, combining respect and restraint with an appreciation for human possibilities for flourishing within nature.

A charming and engrossing novel for fans of Southern fiction and the recent hit memoir Hillbilly Elegy about a lush and storied coal-mining town—and the good people who live there—in danger of being destroyed for the sake of profit. Will the truth about the town's past be its final undoing or its saving grace? 1933. In the mining town of Beulah Mountain, West Virginia, two young girls form an unbreakable bond against the lush Appalachian landscape, coal dust and old hymns filling their lungs and hearts. Despite the polarizing forces of their fathers—one a mine owner, one a disgruntled miner—Ruby and Bean thrive under the tender care of Bean's mama, blissfully unaware of the rising conflict in town and the coming tragedy that will tear them apart forever. 2004. Hollis Beasley is taking his last stand. Neighbors up and down the hollow have sold their land to Coleman Coal and Energy, but Hollis is determined to hold on to his family legacy on Beulah Mountain. Standing in his way is Buddy Coleman, an upstart mining executive who hopes to revitalize the dying town by increasing coal production and opening the Company Store Museum. He'll pay homage to the past—even the massacre of 1933—while positioning the company for growth at all costs. What surprises them all is how their stories will intersect with a feisty octogenarian living hundreds of miles away. When Ruby Handley Freeman's grown children threaten her independence, she takes a stand of her own and disappears, propelling her on a journey to face a decades-old secret that will change everything for her and those she meets.

Contestants have died, been maimed, and spiraled down into the nightmarish realm of madness. Half of them don't finish—in fact, only 200 racers have ever made it to the end. "Outside" magazine calls it "the toughest test of endurance in the world." RAAM (the Race Across America) is a bicycle race like no other. This epic race is the most brutal organized sporting event you've never heard of and one of the best-kept secrets in the sports world. Author Amy Snyder follows a handful of athletes before, during, and after the 2009 event, the closest and most controversial in history. "Hell on Two Wheels" is a thrilling and remarkably detailed account of their ups and downs, triumphs and tragedies. By experiencing the race from the perspective of the racers themselves, "Hell on Two Wheels" breaks new ground in helping us appreciate how such a grueling effort can be so cleansing and self-revelatory. This is more than just a race; it's a monster, a crucible, an unforgettable allegory about the human experience of pain and joy and self-discovery.

A controversial call to put honor at the center of morality To the modern mind, the idea of honor is outdated, sexist, and barbaric. It evokes Hamilton and Burr and pistols at dawn, not visions of a well-organized society. But for philosopher Tamler Sommers, a sense of honor is essential to living moral lives. In Why Honor Matters, Sommers argues that our collective rejection of honor has come at great cost. Reliant only on Enlightenment liberalism, the United States has become the home of the cowardly, the shameless, the selfish, and the alienated. Properly channeled, honor encourages virtues like courage, integrity, and solidarity, and gives a sense of living for something larger than oneself. Sommers shows how honor can help us address some of society's most challenging problems, including education, policing, and mass incarceration. Counterintuitive and provocative, Why Honor Matters makes a convincing case for honor as a cornerstone of our modern society.

Inspired by Thoreau, Ilgunas set out on a Spartan path to pay off \$32,000 in undergraduate student loans by scrubbing toilets and making beds in Coldfoot, Alaska. Determined to graduate debt-free after enrolling in graduate school, he lived in an Econoline van in a campus parking lot, saving—and learning—much about the cost of education today.

Grand Prize Winner of the 2015 Green Book Festival Mark Sundeen's new book, *The Unsettlers*, is coming in January 2017 from Riverhead Books. In 2000, Daniel Suelo left his life savings—all thirty dollars of it—in a phone booth. He has lived without money—and with a newfound sense of freedom and security—ever since. *The Man Who Quit Money* is an account of how one man learned to live, sanely and happily, without earning, receiving, or spending a single cent. Suelo doesn't pay taxes, or accept food stamps or welfare. He lives in caves in the Utah canyonlands, forages wild foods and gourmet discards. He no longer even carries an I.D. Yet he manages to amply fulfill not only the basic human needs—for shelter, food, and warmth—but, to an enviable degree, the universal desires for companionship, purpose, and spiritual engagement. In retracing the surprising path and guiding philosophy that led Suelo into this way of life, Sundeen raises provocative and riveting questions about the decisions we all make, by default or by design, about how we live—and how we might live better.

Winner of the Nebraska Center for the Book Award, Travel • A Sigurd Olson Nature Writing Award Notable Book • Honoree of the Society of Midland Authors Annual Literary Award for Biography/Memoir Now that President Donald Trump has revived the Keystone XL pipeline that was rejected by former President Obama, *Trespassing Across America* is the book to help us understand the kaleidoscopic significance of the project. Told with sincerity, humor, and wit, Ilgunas's story is both a fascinating account of one man's remarkable journey along the pipeline's potential path and a meditation on climate change, the beauty of the natural world, and the extremes to which we can push ourselves—both physically and mentally. It started as a far-fetched idea—to hike the entire length of the proposed route of the Keystone XL pipeline. But in the months that followed, it grew into something more for Ken Ilgunas. It became an irresistible adventure—an opportunity not only to draw attention to global warming but also to explore his personal limits. So in September 2012, he strapped on his backpack, stuck out his thumb on the interstate just north of Denver, and hitchhiked 1,500 miles to the Alberta tar sands. Once there, he turned around and began his 1,700-mile trek to the XL's endpoint on the Gulf Coast of Texas, a journey he would complete entirely on foot, walking almost exclusively across private property. Both a travel memoir and a reflection on climate change, *Trespassing Across America* is filled with colorful characters, harrowing physical trials, and strange encounters with the weather, terrain, and animals of America's plains. A tribute to the Great Plains and the people who live there, Ilgunas's memoir grapples with difficult questions about our place in the world: What is our personal responsibility as stewards of the land? As members of a rapidly warming planet? As mere individuals up against something as powerful as the fossil fuel industry? Ultimately, *Trespassing Across America* is a call to embrace the belief that a life lived not half wild is a life only half lived. It's the perfect travelers gift for fans of *Free Solo* and *Turn Right at Machu Picchu*.

Henry David Thoreau built a log cabin in the Concord Forest in Massachusetts in 1845. Thoreau lived there for two years to try out an alternative to the hectic and economically successful everyday life. The reason: He wanted to consciously feel life in harmony with nature again. The minimalist lifestyle should create space and time for the essentials. Thoreau kept a diary about his feelings and experiences during his time in the forest. This book arose from his notes. It deals with his everyday problems, with economic and philosophical considerations, with the feeling of loneliness, with the animals of the forest, with the seasons and with the reading of classical works.

If you can't bring the man to the books, bring the books to the man. Mary Lemist Titcomb (1852–1932) was always looking for ways to improve her library. As librarian at the Washington County Free Library in Maryland, Titcomb was concerned that the library was not reaching all the people it could. She was determined that everyone should have access to the library—not just adults and those who lived in town. Realizing its limitations and inability to reach the county's 25,000 rural residents, including farmers and their families, Titcomb set about to change the library system forever with the introduction of book-deposit stations throughout the country, a children's room in the library, and her most revolutionary idea of all—a horse-drawn Book Wagon. Soon book wagons were appearing in other parts of the country, and by 1922, the book wagon idea had received widespread support. The bookmobile was born!

Throughout history, some books have changed the world. They have transformed the way we see ourselves - and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives - and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are. Thoreau's account of his solitary and self-sufficient home in the New England woods remains an inspiration to the environmental movement - a call to his fellow men to abandon their striving, materialistic existences of 'quiet desperation' for a simple life within their means, finding spiritual truth through awareness of the sheer beauty of their surroundings.

Cabin Fever might be described as a modern Walden, if you can imagine Thoreau married, with a job, three kids, and a minivan. A seasonal memoir written alternately from a little cabin in the Michigan woods and a house in suburban Chicago, the book engages readers in a serious yet irreverent conversation about Thoreau's relevance in the modern age. The author turns Thoreau's immortal statement "I went to the woods because I wished to live deliberately" on its head with the phrase "I got married and had children because I wished to live deliberately." Though Fate spends half his time at the cabin, this is no world-renouncing, back-to-nature paean. Unlike Thoreau during his Walden years, he balances his solitude with full engagement in family and civic life. Fate's writing reflects this balancing of nature and family in stories such as "The Confused Cardinal," in which a male cardinal feeds chicks of another species and leads to a reflection on parenting; "In the Time of Cicadas," which juxtaposes his wife's hysterectomy with the burgeoning fecundity of the seventeen-year cicadas coming out to mate; and in a beautiful essay reminiscent of E. B. White's "Once More to the Lake," in which Fate takes his son to the same cabin his father took him as a child. In his exploration of how we are to live "a more deliberate life" amid a high-tech, materialist culture, Fate invites readers into an interrogation of their own lives, and into a new kind of vision: the possibility of enough in a culture of more.

The hauntingly prophetic classic novel set in a not-too-distant future where books are burned by a special task force of firemen. 'Another indispensable classic' *The Times* "Ray Bradbury's gift for storytelling reshaped our culture and expanded our world" Barack Obama Guy Montag is a fireman. His job is to burn books, which are forbidden, being the source of all discord and unhappiness. Even so, Montag is unhappy; there is discord in his marriage. Are books hidden in his house? The Mechanical Hound of the Fire Department, armed with a lethal hypodermic, escorted by helicopters, is ready to track down those dissidents who defy society to preserve and read books. The classic dystopian novel of a post-literate future, *Fahrenheit 451* stands alongside Orwell's *1984* and Huxley's *Brave New World* as a prophetic account of Western civilization's enslavement by the media, drugs and conformity. Bradbury's powerful and poetic prose combines with uncanny insight into the potential of technology to create a novel which, decades on from first publication, still has the power to dazzle and shock.

With visitation rising, budgets shrinking, and people loving our parks to death, he realized that—along with the health of his patients—he was also fighting for the life of "America's Best Idea."

"Parnassus on Wheels" (1917) was Christopher Morley's first published novel. It tells the story of Roger Mifflin, who sells his travelling book business to 39-year-old Helen McGill. The latter is tired of taking care of her ailing older brother Andrew, a businessman, farmer, and author. The novel is told from the perspective of Mrs McGill and was in part inspired by David Grayson's novel "The Friendly Road." Morley wrote a sequel to this story called "The Haunted Bookshop."

Christopher Morley (1890–1957) was an American author, poet and journalist from Pennsylvania. His father was a mathematics professor and his mother a violinist. The family moved to Baltimore, Maryland, in 1900 and he later studied modern history at Oxford. After getting his degree, he moved back to America and married Helen Booth Fairchild, with whom he had four children. Morley was a prolific writer and is remembered for novels such as "Parnassus on Wheels" (1917), "The Haunted Bookshop" (1918), "Thunder on the Left" (1925), and "Kitty Foyle" (1939).

Private property is everywhere. Almost anywhere you walk in the United States, you will spot "No Trespassing" and "Private Property" signs on trees and fence posts. In America, there are more than a billion acres of grassland pasture, cropland, and forest, and miles and miles of coastlines that are mostly closed off to the public. Meanwhile, America's public lands are threatened by extremist groups and right-wing think tanks who call for our public lands to be sold to the highest bidder and closed off to everyone else. If these groups get their way, public property may become private, precious green spaces may be developed, and the common good may be sacrificed for the benefit of the wealthy few.

Ken Ilgunas, lifelong traveler, hitchhiker, and roamer, takes readers back to the nineteenth century, when Americans were allowed to journey undisturbed across the country. Today, though, America finds itself as an outlier in the Western world as a number of European countries have created sophisticated legal systems that protect landowners and give citizens generous roaming rights to their countries' green spaces. Inspired by the United States' history of roaming, and taking guidance from present-day Europe, Ilgunas calls into question our entrenched understanding of private property and provocatively proposes something unheard of: opening up American private property for public recreation. He imagines a future in which folks everywhere will have the right to walk safely, explore freely, and roam boldly—from California to the New York island, from the Redwood Forest to the Gulf Stream waters.

The triumphant result is Heart Berries, a memorial for Mailhot's mother, a social worker and activist who had a thing for prisoners; a story of reconciliation with her father?an abusive drunk and a brilliant artist?who was murdered under mysterious circumstances; and an elegy on how difficult it is to love someone while dragging the long shadows of shame. Mailhot trusts the reader to understand that memory isn't exact, but melded to imagination, pain, and what we can bring ourselves to accept. Her unique and at times unsettling voice graphically illustrates her mental state. As she writes, she discovers her own true voice, seizes control of her story, and, in so doing, reestablishes her connection to her family, to her people, and to her place in the world.
